

Join us for a free Quectel Wireless seminar in Bucharest

Comet Electronics is pleased to invite you to a free technical seminar, organized jointly with Quectel Wireless, the leader in wireless IoT/M2M communications. The seminar will be held on Wednesday, October 22, 2025, in Bucharest, Romania. The presentation language will be English.

Quectel Wireless is a leading provider of IoT solutions, backed by exceptional technical support and value-added services for its customers. Its growing global team of 7,000 professionals sets the pace for innovation in cellular, GNSS, Wi-Fi, and Bluetooth communication modules.

Our full-day seminar program includes technical presentations on technologies and product lines in the following key categories for any IoT project:

- Quectel user friendly project development
- Smart modules with Android, Linux or Ubuntu
- Short-range Wi-Fi / Hi-Lo / Bluetooth / LoRa modules

- GNSS modules, Dead Reckoning, and Real-Time Kinematic
- External and embedded antennas

The seminar also includes practical demonstrations, allowing you to experience the most interesting and new products from Quectel's portfolio.

The speakers at the event will be leading engineers from Quectel, who will be at your disposal during the day for direct contact and exchange of ideas.

We believe that attending this seminar will give you the opportunity to gain knowledge from the best specialists in the field of wireless communications, while providing opportunities to network with other professionals working in the IoT/M2M field.

Only pre-registered participants will be able to attend the seminar. The registration process requires filling out a form with your name and contact information. Upon successful registration, a confirmation email will be sent to the address you provided, containing additional information about the seminar program, location, and start time.
